Speaker Biographies

Dianne Cella, MSN, RN, RYT – Pediatric Nursing, Boston Children’s Hospital

Dianne has been a practicing pediatric nurse at Boston Children’s Hospital for 38 years. Dianne is a reiki master and registered yoga teacher. She has been practicing yoga for 36 years and has integrated many of the yogic principles throughout her nursing practice employing breath work, mindfulness, meditation, and healing. Dianne currently has developed a “Wellness Program” at BCH at the Hale Family Center for Families for parents and caregivers providing reiki, meditation yoga, massage and dance. Dianne is an Urban Zen Integrative Therapist and uses integrative modalities to treat symptoms of pain, anxiety, nausea, insomnia, constipation and exhaustion. Dianne is a speaker for the Community School Nurse Education series on pain and reiki I & II, Calming and Coping. Dianne is also a member of the Children’s Hospital Integrative Care team and Boston Hospitals Nursing Consortium on Integrative Care.

Emily Jean Davidson, MD, MPH – Attending Physician, Boston Children’s Hospital

Dr. Emily Jean Davidson is a pediatrician specializing in the care of children with complex needs. Board certified in General Pediatrics and Neurodevelopmental Disabilities, Dr. Davidson focuses clinically on children with Down syndrome, cerebral palsy and other multi-system medical issues. She is an attending physician at Boston Children’s Hospital and an Instructor in Pediatrics at Harvard Medical School. She has been practicing yoga for over 17 years and teaching inclusive yoga for children for 3 years. She is a registered yoga teacher, a level 1 reiki practitioner, and trained in Urban Zen Integrative Therapy. She was the 2014 recipient of the Children’s Hospital David S. Weiner Award to develop yoga for patients and staff and currently offers chair yoga, as well as Urban Zen Integrative therapy treatments, for staff, patients, and families at Boston Children’s Hospital.

Lori Lazdowsky, RN, BSN, CPN – Clinical Coordinator, Pediatric Headache Program, Boston Children’s Hospital

Lori Lazdowsky has over 27 years of Pediatric nursing experience including Pediatric Intensive care, Acute, Chronic, and Headache Pain management. As clinical Coordinator of the pediatric headache program, Lori has initiated clinical research and projects, including: Back to School Nurses Guide for Chronic Headache Students. Lori is a Reiki Master and Urban Zen Integrative Therapist, providing Holistic modalities to pediatric patients and parents in her daily practice. Lori is a speaker for Community School Nurse Education series on pain and headache management. She is a member of the Children’s Hospital Integrative Care team and Boston Hospitals Nursing Consortium on Integrative Care. Lori is also the Chapter leader for the American Holistic Nurses Association.

Yuan-Chi Lin, MD, MPH – Director, Medical Acupuncture Service and Senior Associate of Anesthesia, Boston Children’s Hospital

Dr. Yuan-Chi Lin is the director of Medical Acupuncture Service, Senior Associate of Anesthesia and Pain Medicine at Boston Children’s Hospital, as well as Associate Professor of Anesthesia and Pediatrics at Harvard Medical School. He is the founder and director of Medical Acupuncture Service at Boston Children’s Hospital.

Stephanie Porter, MSN, RN – Nursing Faculty Member, Boston Children’s Hospital

Stephanie Porter, MSN, RN is a Nursing Faculty member for the Leadership Education in Neurodevelopmental Medicine (LEND) at the Institute for Community Inclusion at Boston Children’s Hospital. She is a regional consultant for the DPH MASSTART program supporting children with special health care needs in the school setting. Through the Community Education Initiative at BCH she trains school nurses and community providers to provide complimentary and holistic therapies within the school setting. Stephanie is trained as a Master Reiki teacher (Usui and Holy Fire Karuna Reiki) and provides reiki to children in hospital and as a volunteer for adults and children in the community. She has authored a number of articles, guideline manuals and book chapters on children supported by medical technology and articles on holistic and complimentary therapies.
