Upcoming Events

[Federal Funding Opportunities - 10/16](#)

This session on Federal Funding Opportunities, as part of the Career Development Series, will provide participants with comprehensive and current information on career prospects and resources available through the National Institutes of Health (NIH) Intramural and Extramural Programs, the Agency for Healthcare Research and Quality, and the National Science Foundation (NSF). See full [program](#).

[BRI Cancer Research Center Poster Session - 10/20](#)

5:00pm – 7:00pm, Shapiro Conference Center. Cancer researchers will be showcasing their most recent work for a chance to win up to \$1000. Wine and cheese reception will accompany the event and award ceremony.

[Slicer 3 Hands-On Workshop on 3D Visualization of Medical Image Data - 10/30](#)

This workshop is an introduction for clinical translational scientists who work with medical imaging data, radiologists, medical students and fellows to learn the basics of viewing and interacting with DICOM volumes in 3D using the Slicer software. The two hour course is divided into three sections: an introduction on the concepts of 3D visualization, an experimental hands-on training session using an MR DICOM dataset of the brain and a CT DICOM dataset of the abdomen, and a panel discussion on additional analysis features such as volumetric registration techniques for longitudinal studies. Participants must bring their own laptop with the Slicer software loaded. Please visit [Slicer3 software](#) to install the software and the tutorial data sets. [Registration is required and space is limited](#). Contact: [Marianne Moore](#)

[Conflict of Interest: Facts and Friction - 10/30](#)

Catherine D DeAngelis, MD, MPH, Editor in Chief, JAMA, Editor-Chief of Scientific Publications and Multimedia Applications, Professor of Pediatrics, Johns Hopkins University of School of Medicine. Fae Golden Kass Lectureship was created by gifts of the family and friends of Fae Golden Kass to support an annual lecture by a woman in the medical sciences. Co-sponsored by: The HMS Office for Faculty Affairs; the Office for Educational Programs at the HSPH; HMS/HSDM Joint Committee on the Status of Women; BIDMC Center for Faculty Development, Children's Hospital Office of Faculty Development, and the Offices for Womens Careers at BWVH and MGH. An informal reception will follow the lecture.

Announcements

[Building Interdisciplinary Research Careers in Women's Health \(BIRCWH\) Program – application deadline 11/14](#)

BWVH is the home site for a Harvard-wide training grant initiative called "Hormones and Genes in Women's Health: From Bench to Bedside." We are pleased to invite applications for a full-time or part-time faculty position for a MD or PhD/ScD to develop an academic career in women's health. Specifically, this NIH-sponsored training grant will support scholars involved in

investigating the role of hormones and genes in understanding sex differences in vulnerabilities to clinical disorders and those disorders specific to women. Potential Scholars investigating socio-environmental factors modulating the impact of hormones and genes in understanding these sex-specific vulnerabilities will also be considered. Scholars will be sponsored for 2-3 years of mentored research from Harvard faculty in basic, translational, or clinical aspects of women's health, and will combine, if applicable, clinical work in the Scholar's specialty. Applications from women and minorities are highly encouraged and desired. [Details and Application](#). Contact: Dr. Ursula Kaiser, Program Director, BIRCWH@partners.org

Did You Know?

[New Housing Option for Harvard Community](#) – Information session 10/15

12:00 – 1:30 p.m., Faculty Room, 1st Floor, Gordon Hall, 25 Shattuck Street, HMS. 303 Third Street is an exciting residential cooperative community in the heart of Kendall Square created by faculty and alumni of MIT, Harvard, and MGH (University Residential Communities). The eight-story building offers a wide selection of floor plans and an unmatched set of amenities specifically designed to enrich the lives of its residents. Please join Harvard Real Estate Services, who invite you to learn about this new community. The residences at 303 Third Street will offer homes in a community alive with intellectual curiosity, camaraderie, creativity and the free and open exchange of ideas. This community was conceived and has been designed for those who love the academic life; that familiar network of friends and colleagues whose focus is teaching, learning, communication and research. To register, email: Barbara.Wolf@hms.harvard.edu. Feel free to bring your lunch.
