

Office for Sponsored Staff and Volunteer Services

Pain Research Trainee Posting

Department: Department of Anesthesiology, Perioperative and Pain Medicine Research

Location : 850 Boylston Street, Chestnut Hill, MA - 02467.

Contact Person: Ashish Bhandari (abhandari1@partners.org)

Scope of Internship: The Clinical Research Division of the Pain Management Center at Brigham and Women's Hospital (a teaching affiliate of Harvard medical school) is seeking a highly motivated clinical research trainee. This unpaid internship is an excellent opportunity for recent college graduates who are seeking to go onto graduate or medical school.

About the Research:

The research goals are:

- To better understand and treat pain conditions

As a student, you will:

- Be part of the excitement of working as clinical researcher in the Brigham and Women's Pain Management Center
- Develop a comprehensive understanding of the overall process of clinical research
- Gain valuable research experience through contributions to at least one on-going clinical study
- Have the opportunity to shadow providers in the busy Pain Management Clinic at 850 Boylston St.
- Create future job and post-graduate opportunities through networking

Training Goals:

The skills you will be trained on are:

- Recruiting and screening patients for clinical trials
- Coordinating patient participation in clinical trials
- Maintaining organized records for ongoing studies
- Conducting data abstraction and literature reviews as needed

Skill Set/Educational Requirements:

Background knowledge in biology and a desire to pursue a medical career is preferred. Prior experience in a clinical research setting is helpful, but not necessary.

Does this position entail contact with blood or body or body fluids? No

Training Provided: Ashish Bhandari, Research Program Manager

Physical requirements : No

Days/ Hours : 20 hours per week. Monday – Friday (b/w 8:30 to 5:00pm)

Email: (abhandari1@partners.org)
