

EDUCATIONAL ACTIVITIES AND EVENTS

Grand Rounds:

Place: Anesthesia Lecture Hall, CWN L1

Topic: Maintaining epidural labor analgesia: From bolus to infusion to bolus

Presenter: Dr. Cynthia Wong (Visiting Professor)

Time & Date: 7:00-8:00am, October 11, 2017

Learning Objectives: At the conclusion at this activity, the participant will:

1. Describe how bolus vs. infusion administration of local anesthetic solutions into the epidural space affects block characteristics.
2. Predict how density of neuraxial labor analgesia affects the outcome of labor.
3. Distinguish the advantages and disadvantages of different modes of epidural drug administration, including continuous infusion, patient controlled epidural analgesia (PCEA) with and without background infusions, and programmed intermittent epidural bolus.

Presenter: Dr. Cynthia Wong has no relevant financial disclosures.

Block Leader: Dr. Brian Bateman has no relevant financial disclosures.

Course Director: Dr. David Silver has no relevant financial disclosures.

Accreditation

Partners HealthCare System is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Partners HealthCare System designates this live activity for a maximum of 1 *AMA PRA Category 1 Credit*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Clinical Conference

Place: Anesthesia Lecture Hall, CWN L1

Topic: Morbidity and Mortality

Presenter: Dr. David Silver

Time & Date: 8:00-9:00am, October 11, 2017

Learning Objectives: At the conclusion at this activity, the participant will:

Presenter: Dr. David Silver has no relevant financial disclosures.

Block Leader: Dr. Brian Bateman has no relevant financial disclosures.

Course Director: Dr. David Silver has no relevant financial disclosures.

EDUCATIONAL ACTIVITIES AND EVENTS

Grand Rounds:

Place: Anesthesia Lecture Hall, CWN L1

Topic: Microanatomy of peripheral nerves and implications for safety blocks.

Presenter: Dr. Xavi Sala-Blanch

Time & Date: 7:00-8:00am, November 15, 2017

Learning Objectives: At the conclusion at this activity, the participant will:

1. To understand the internal structure of the peripheral nerve and its self-protection against trauma.
2. To understand that nerve block produces a nerve injury and that we should prevent as much as possible by a safe blocking technique algorithm.

Presenter: Dr. Xavi Sala-Blanch has no relevant financial disclosures.

Block Leader: Dr. Kamen Vlassakov has no relevant financial disclosures.

Course Director: Dr. David Silver has no relevant financial disclosures.

Clinical Conference:

Place: Anesthesia Lecture Hall, CWN L1

Topic: Anatomy of knee joint and implication of genicular nerve block: The future

Presenter: Dr. Xavi Sala-Blanch

Time & Date: 8:00-9:00am, November 15, 2017

Learning Objectives: At the conclusion at this activity, the participant will:

1. To understand the innervation of the knee and the importance of nerves blocks in the TKR procedure.
2. To understand the importance of selective genicular nerve block rather than LIA in the future of TKR surgery

Presenter: Dr. Xavi Sala-Blanch has no relevant financial disclosures.

Block Leader: Dr. Kamen Vlassakov has no relevant financial disclosures.

Course Director: Dr. David Silver has no relevant financial disclosures.
