## NELSON, CODY, MD, PhD

(07/01/2022 – PRESENT)

Dr. Nelson is a fourth year fellow who received his bachelor's degree from University of Southern California, and his combined M.D./Ph.D. from Duke University. He did his residency at Brigham and Women's Hospital.

*"I chose BWH because I wanted a program with a strong emphasis on basic science and an interest in developing my future career in academic research."*

 **Brigham and Women's Hospital**  
Founding Member, Mass General Brigham

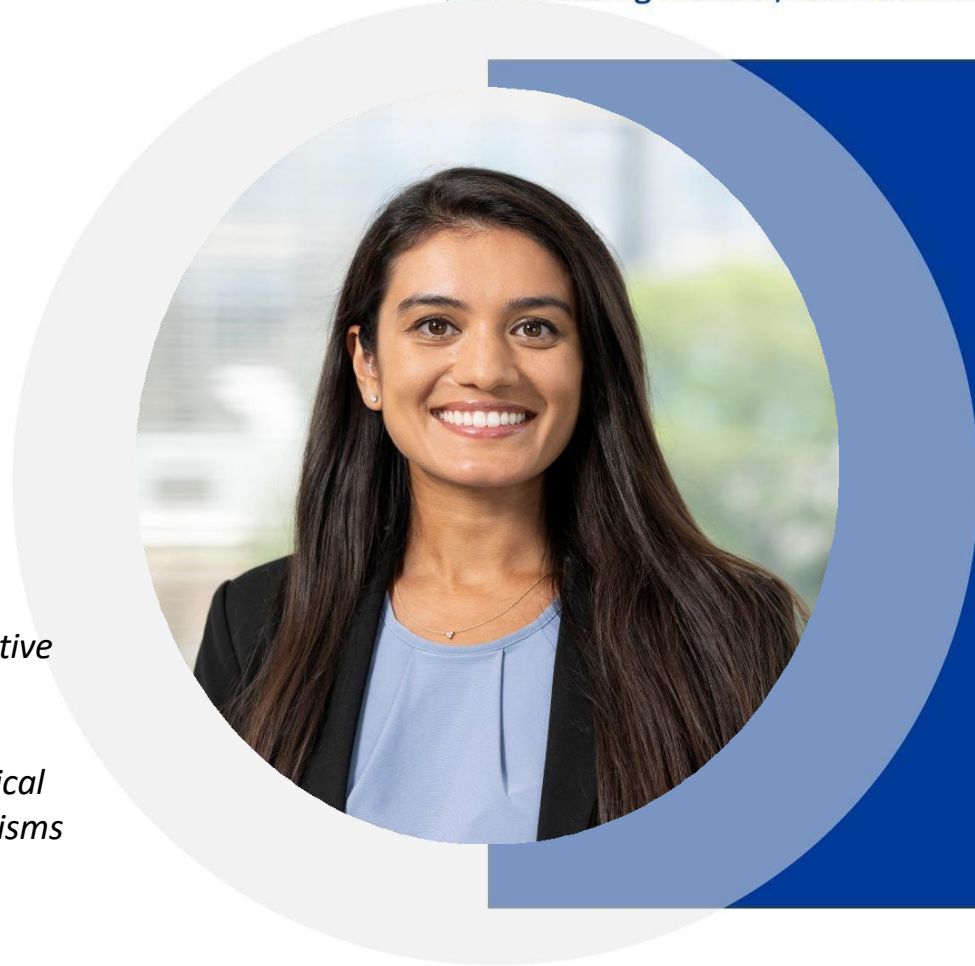

# DHARIA, TIFFANY, MD

(07/01/2023 – PRESENT)

Dr. Tiffany Dharia is a third year fellow at Brigham and Women's Hospital. Dr. Dharia graduated summa cum laude from Sidney Kimmel Medical College at Thomas Jefferson University, completed her residency in Internal Medicine at The Hospital of the University of Pennsylvania, and worked in the Hospital Medicine Department at Massachusetts General Hospital prior to joining the department at Brigham.

*"I chose BWH because of the wonderful faculty, supportive fellows, and knowledgeable mentors who invest in our learning and growth. BWH offers unparalleled opportunities and resources in both a research and clinical setting. Currently, I am investigating causative mechanisms in the pathogenesis of AERD and nasal polyps"*

 **Brigham and Women's Hospital**  
Founding Member, Mass General Brigham

## ROSADO ALICEA, JAMIE, MD

(07/01/2023 – PRESENT)

Dr. Rosado Alicea is a third year fellow and graduated from the University of Puerto Rico at Ponce in 2015 with a major in Biomedical Sciences and obtained his medical degree from San Juan Bautista School of Medicine in 2020. He completed a Pediatric residency at Saint Luke Medical Center, where he was elected chief resident for 2022-2023. Jamie is researching markers from nasal fluid for type 2 low asthma in Laidlaw's lab.

*"I chose BWH due to the faculty's commitment to the fellows' academic education, research, and personal growth. The program allows me to access top-notch resources, cutting-edge research opportunities, and a network of accomplished professionals and role models. Additionally, being part of the BWH community enables me to engage in impactful research and contribute to innovations in my field."*

**Brigham and Women's Hospital**  
Founding Member, Mass General Brigham

## OLAYIWOLA, OLUWATOBI, MD

 **Brigham and Women's Hospital**  
Founding Member, Mass General Brigham

(07/01/2023 – PRESENT)

Dr. Olayiwola is a third year fellow at Brigham and Women's Hospital. Dr. Olayiwola received her Bachelor's Degree from Stanford University, and her M.D. from University of Minnesota Medical School. She completed her Pediatrics residency at St. Louis Children's Hospital and worked as Pediatric Hospitalist and Neonatal Hospitalist prior to starting fellowship.

*"I chose BWH because of its access to cutting-edge research, exceptional clinical training, and strong emphasis on interdisciplinary collaboration. The program and faculty are also committed not only to the medical education of fellows but also provide exemplary mentorship and support in preparing fellows for successful careers in the field of Allergy and Immunology."*

## HINO, CHRISTOPHER, MD

 **Brigham and Women's Hospital**  
Founding Member, Mass General Brigham

(07/01/2024 – PRESENT)

Dr. Hino is a second year fellow and graduated *summa cum laude* from Occidental College with a degree in Biochemistry. He earned his M.D. from the David Geffen School of Medicine at UCLA. Prior to joining BWH, he trained in internal medicine at Loma Linda University Medical Center.

*"Brigham and Women's Hospital was my first-choice for fellowship training due to its unparalleled mentorship, strong culture of academic excellence, and dedication to developing physician-scientists. The program's emphasis on rigorous research training and collaborative scholarship aligns perfectly with my career goals in academic medicine. My current research focuses on elucidating the mechanisms by which allergic inflammation shape pathogenic B cell responses within the germinal center."*

## RAYCHAUDHURI, SANCHITA, MD

 **Brigham and Women's Hospital**  
Founding Member, Mass General Brigham

(07/01/2024 – PRESENT)

Dr. Raychaudhuri is a second-year fellow at Brigham and Women's Hospital. She graduated from the Icahn School of Medicine at Mount Sinai and completed her residency in pediatrics at University of California at Davis.

*"I am very grateful to be training in allergy and immunology at Brigham and Women's Hospital and have received excellent teaching and support from the faculty and staff here. Currently, I am conducting research on the development of pediatric food allergy."*

---

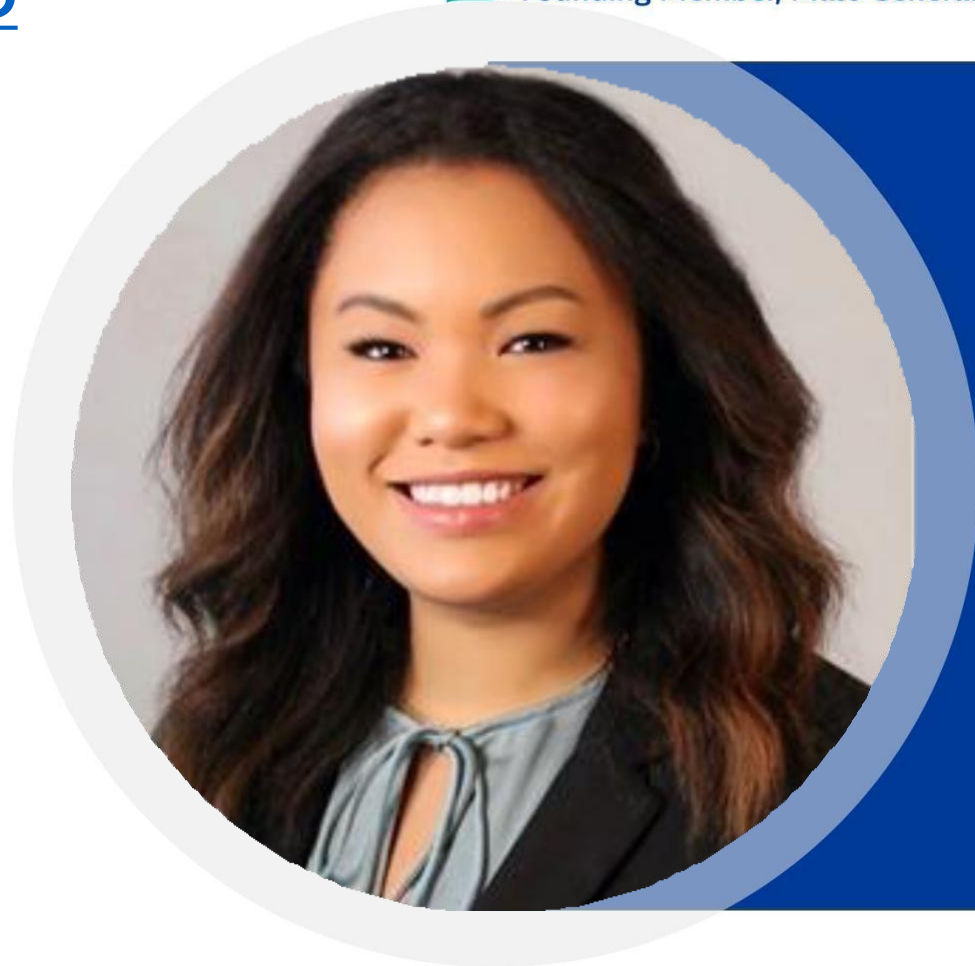

## DAVIDSON, LAUREN, MD

(07/01/2024 – PRESENT)

Dr. Davidson is a second year fellow at Brigham and Women's Hospital. She graduated from the Six-Year Accelerated B.A./M.D. program at UMKC School of Medicine. She then completed her residency in Internal Medicine at The University of Rochester Medical Center.

*"I chose Brigham and Women's Hospital for fellowship as it offers the ideal environment to grow as a clinician with state-of-the-art research facilities, surrounded by leaders in the field, outstanding colleagues, and a culture of innovation and excellence. The faculty's dedication to fostering the next generation of physician-scientists is evident in the individualized support and guidance provided throughout training."*

 **Brigham and Women's Hospital**  
Founding Member, Mass General Brigham

## KOVACS, STEPHEN, MD, PhD

 **Brigham and Women's Hospital**  
Founding Member, Mass General Brigham

(07/01/2025 – PRESENT)

Dr. Kovacs is a first year fellow and graduated from Johns Hopkins University with a degree in molecular biology. He completed his MD/PhD from UNC-Chapel Hill with a PhD in immunology. He then completed his internal medicine training at Brigham and Women's Hospital prior to fast-tracking at BWH for Allergy and Immunology.

*"I knew early on that I wanted to continue my training at BWH in the Allergy and Immunology fellowship because this program offers a great blend of clinical expertise, unique resources for cutting edge research, and wonderful faculty to work with. As a researcher, I hope to be able to apply my background in innate immunology to answer questions in allergy."*

## SUPRON, ANDREW, MD

 **Brigham and Women's Hospital**  
Founding Member, Mass General Brigham

(07/01/2025 – PRESENT)

Dr. Supron is a first year fellow and graduated *summa cum laude* from Rice University, where he studied classics, and from the Johns Hopkins University School of Medicine, where he earned his MD. He completed his residency in internal medicine at Brigham and Women's Hospital and stayed on for his allergy and immunology training.

*"The BWH A/I division is just incredible. The faculty are brilliant, and their research is meaningful. They're also among the most approachable and personable leaders in academia. I feel assured knowing that they're looking out for me, my career, and my personal wellbeing; it's a really special group of people here."*
