COVID-19 MULTILINGUAL, DISABILITY, & COMMUNITY HEALTH RESOURCES

As part of ensuring an equitable response to COVID-19, Mass General Brigham created a resource repository that includes:

- Multilingual resources for patients, providers, and employees who speak languages other than English
- Resources to support clinicians working with people with disabilities
- Community health resources

This repository was created for internal use within Partners HealthCare system, but is also available for other organizations who may benefit from these resources.
