Appendix 4: Microcephaly Management Algorithm

1. **Is Head circumference (HC) <3%?**
   - No: Standard of Care
   - Yes: Remeasure HC (ideal to have a minimum of 2 data points)

2. **HC remains <3%?**
   - No: Z score -2 to -3
   - Yes: Obtain a brain MRI, Consult Neurology, Send CMV PCR

3. **Z score >-3**
   - Measure and plot both biological parents’ HC. If both HC normal (>3%) OR parents have a neurologic disorder: Yes
   - No: Monitor HC per standard of care, Send CMV PCR
