Consultation-Liaison Psychiatry Fellows

Stephen Conway, MD – sconway6@partners.org
Stephen graduated from Penn State Medical School and completed psychiatry residency at BWH. He is now a Psycho-oncology track CL fellow at BWH/DFCI. Stephen’s interests include psycho-oncology, treatment resistant psychiatric conditions, psychotherapy, and neuromodulation.

Laura Duque Serrano, MD – LDUQUESERRANO@mgh.harvard.edu
Laura Duque is a C-L fellow in the general track. She currently serves as the OB/GYN inpatient liaison fellow and works in both the neuropsychiatry and psycho-oncology clinics. She is a medical graduate of Universidad de los Andes in Bogotá, Colombia. After graduating from medical school, she worked as a research fellow in the Cardiac Psychiatry Research Program and the Benson-Henry Institute at MGH. She completed psychiatry residency at Mayo Clinic. Her clinical and research interests include catatonia, functional neurological disorder, psycho-oncology, and mind-body medicine. She plans to continue her training with a fellowship in neuropsychiatry after completing C-L fellowship.

Lauren Goldschen, MD – lgoldschen@partners.org
Lauren is originally from Baltimore, Maryland. She completed medical school at the University of Pittsburgh and psychiatry residency at Brigham and Women’s Hospital/Harvard Medical School where she served at Outpatient Chief Resident. As a CL fellow, Lauren works as the neuropsychiatry liaison and her ambulatory clinics include addiction psychiatry and women’s mental health. She intends to focus her early career work on understanding the overlap between autoimmune diseases and psychiatric illness, and in designing, testing, and implementing interventions to improve the mental health for patients with rheumatic illnesses. Lauren is particularly interested in the psychological challenges, needs, and treatment considerations for patients diagnosed with systemic lupus erythematos.

Omar Munoz Abraham, MD – omunozabraham@bwh.harvard.edu
Omar Munoz Abraham was born and raised in Mexico. He later moved to the United States to complete his psychiatry residency at University of Miami. During his PGY-4 year, he served as Administrative Chief Resident, which enhanced his leadership and academic skills. His interest in Consultation-Liaison grew during his training, leading him to Brigham and Women’s/Dana-Farber Cancer Institute fellowship program under the Psycho-oncology track. His professional passions include psycho-oncology, palliative care, transplant psychiatry, and neuropsychiatry. He aims to work at an academic center as a C-L attending, with the eventual goal of becoming a program director, further developing his academic, leadership and medical education skills. Beyond work, he cherishes spending time with family, running and playing vinyl music.
Phillip Shwae, MD – pshwae@bwh.harvard.edu
Phillip is originally from Yardley, PA. He graduated from Penn State University and completed medical school at Thomas Jefferson University Sidney Kimmel College of Medicine. He finished his psychiatry residency at Albert Einstein Medical Center in Philadelphia, PA where he served as the Consultation & Liaison Chief Resident during his last two years. During C-L fellowship he is working as the Burn/Trauma liaison fellow and works in both the GI and HIV clinic.

Jacob Weiss, MD – wjacob@bwh.harvard.edu
Jacob spent most of his childhood in Mississippi. He graduated from the University of North Carolina at Chapel Hill with a degree in biology and minors in chemistry and anthropology and has been making his way up the East Coast since. After earning his medical degree at Virginia Commonwealth University School of Medicine in Richmond, VA, Jacob completed psychiatry residency at Temple University Hospital in Philadelphia, PA, where he served as a Chief Resident. Jacob’s professional interests include neuropsychiatry, cardiac psychiatry, pulmonary psychiatry, and catatonia. He also has strong interests in psychodynamic psychotherapy and medical education. Outside of work, Jacob enjoy hiking, tennis, podcasts, cooking, and trying new restaurants.
